

PORTRAIT GUIDE

Congratulations on your upcoming baby! In anticipation of your new arrival, we would like to introduce "New Arrivals" by Red Barn Photography. Our studio is located directly across from the nurse's station in the Mother-Baby Care Unit at Reid Hospital.

Our style of newborn portraiture is simple and elegant. No special clothing is required as we will photograph your baby in a natural state in order to focus on the baby's beautiful and tiny little features.

To see samples of our work, you may visit our website at www.redbarnphotog.com.

Portrait Packages will be available for purchase immediately following your baby's session. See below for more information. We look forward to meeting you and your little one soon!
